## DIRECTOR'S NOTES

In lifetime we experience loss of any kind: the loss of work, of one's own identity, of a relationship, of one's native land or simply the loss of a bunch of keys. Four dancers confronted with loss meet in an empty space. Each one has the solution for the other one...

Strong, melancholic but also bizarre and funny moments create a mosaic of virtuosity and contrasts.

WAY OUT - "A Dance mosaic made by poetry and the body. In Nunzio Impellizzeri's creation the theme of loss is powerful as well as delicate. To make the difference is the rendering of a lights concept and refined musical choices. Interesting (...) is the clear focus that Nunzio gives to the bare physicality of the body and movement, which today are often sacrificed in favour of too conceptual performances." Thierry Frochaux (P.S. Zeitung)

"A choreographic work, that is characterized by its high sensibility and great accessibility. The original movement language and constant movement development are enriched by atmospheric music and the plasticity of the dancers' movements." Michele Olivieri (dance promoter, IT -International Dance Council)
